March 2010

IBM Compatibles by ComputAbility are built with **ASUS Motherboards, Intel Processors** and other carefully sourced parts from reputable suppliers. We will not compromise quality to save a few dollars. There are many opportunities for low cost, "good deals", but ultimately, this is paid for with short component life, poor performance, and poor service.

Since 1993, ComputAbility has supplied the best quality & value available, service backed up by our manufacturing facilities & excellent prices.

* Estimated monthly rate assuming 36 month lease, OAC. ** Labour Extra. All prices shown reflect payment by cash, cheque or Interac. Payment by other means is subject to 2% service fee. Prices and specifications established March 1, 2010 and are subject to error, change or cancellation without notice. ComputAbility cannot be responsible for typography, pricing errors or other errors. ComputAbility reserves the right to cancel orders arising from any such errors. 15% Re-stocking Fee on accepted returns.

ComputAbility's Complete Line of Systems

Value Series

Intel **Dual Core E5400 2.7 GHz** Processor
 ASUS 1600 MHz FSB LGA 775 Motherboard
 1 MB LII Cache
 2 GB 667 MHz Dual Channel DDR2 RAM
 8 USB 2.0 High Speed Ports
 Multimedia Card Reader
 500GB SATA2 7200 rpm Hard Drive, 16 MB Cache
 22X DVD +/- R / RW / CDRW Drive
 Integrated AGP Video, PCI-X 16 Slot on-board
 20" Flat Panel **LCD** Display
 Integrated 8 Channel Sound
 Stereo Speakers
 Keyboard and Optical Mouse
 10/1000 Gigabit Network Interface
 585 Watt ATX Tower Case
 Windows 7 Home Premium (CD & License)

WHAT VALUE !! The Value Series System does not sacrifice Performance or Quality. It's relative low price, and feature rich configuration, including 20" LCD Display, allows even the most novice user to be connected to the Internet within seconds of booting the machine for the first time. Ready to connect to High Speed ADSL or Cable with the included Fast Ethernet Network Interface. USB 2.0 Ports are 40 times faster than USB 1.1! This system is fully upgradeable in the future to 4GB PC2-6400 DDR2 RAM, your choice of on-board Video, and optional PCI or PCI-Expressx16 Video Cards.

Add MS Office Home & Student Ed for only **\$179**

\$799.00

Family All-In-One

Intel **Core2 QUAD Q8200 2.33 GHz** Processor
 ASUS P5QL-em "Green" Motherboard
 4 GB PC5300 Dual Channel DDR2 RAM
 12 USB 2.0 Ports, 2 Firewire Ports, 1 External SATA
 1 TB 7200 rpm SATA2 Hard Drive, 32 MB Cache
 7-in-one Card Reader
 22X LightScribe DVD-RW/ DVD-RAM / CD-RW Drive
 352 MB X4500 Video HDMI/DVI/VGA (2048 x 1536)
 22" LCD Display
 Integrated 8 Channel HD Audio (S/PDIF out)
 2.1 Speaker System with Sub-Woofer
 Internet Keyboard and Optical Mouse
 10/1000 Network Interface
 Antec Tower Case 380 W. High Efficiency Power Supply
 Windows 7 Home Premium (CD & License)
 Colour Printer/Copier/Flatbed Scanner
 Microsoft Works Suite 2006

A perfect system for the family. **Energy Efficient too!** The Premium ASUS Motherboard with the latest Intel G41 Chipset has external SATA & Digital Audio **S/PDIF**. Load "Express Gate" for quick access to the internet and music. The integrated 352 MB Intel Graphics Media Accelerator has PCI Xpress upgradeability and **DirectX 10 compatibility!
